

H.B. 3693 requires political subdivisions of the State of Texas to electronically post the government entity's metered amount of electricity, water, and natural gas for which it is responsible to pay and the aggregate costs for those utility services.

Utilities for facilities owned and operated by the City of Saginaw in calendar year 2012 included:

Natural Gas	1,064 CF
Electricity	3,696,603 kWh
Water	8,876,000 gallons

Total aggregate cost for these utilities was \$509,231
